

PASSION FOR BUILDING

Builder's merchants

vanwalraven.com

We've got what you need

We offer a comprehensive range of products and services for all your residential construction, civil engineering, maritime technology, foundation engineering, road construction, hydraulic engineering, technical building services and industrial projects.

With more than 65,000 products and over 40,000m² of warehouse storage spread across twelve locations in the Netherlands, we have the best and most extensive range of stock available.

Whether you're looking for products for drainage, plumbing, fire protection, installation or fastening materials, roof or construction products, or heaters, tools, pumps or work clothing: we've got it.

All our products have been carefully selected for you with quality in mind. That's why we proudly stock industry-leading brands including Geberit, Wavin, Walraven, Grundfos, Rehau, Grohe, VSH, Henco and Viega.

Fast delivery

Orders will be delivered the next day.

You can be assured that an order will be delivered to your location as fast as possible. If you ever need something right away, we also offer a direct service that will get to you within two hours within the Netherlands.

Orders in Belgium and the west of Germany will be delivered the next day (when ordered before 15:00), for England and France the delivery time is two to three days. The rest of the world takes us four to five days, but the order can be delivered in two to three days with our Express delivery option.

Sharing knowledge

We can offer support in every step of your project from the first sketches all the way to construction and delivery.

Good advice at the right time can help you avoid any unpleasant surprises later, so don't hesitate to ask us if you want any advice on installation, fire protection, sprinkler technology, sound insulation, maximum load, capacity calculations, determining the right pipe diameter and much, much more.

We love building.
We really do.

Over the years we've built up many years of experience that we're happy to share with you.

50 years
VAN WALRAVEN
Passion for building

Strong support

Our logistical, rental and prefab services are ready and waiting to give you all the support you need – and they're all just a click away.

You can order them via our service desks, on the phone, with an ICM link from your system, with a hand scanner from your construction site or straight from our (mobile) webshop. And if you ever want some quick advice, just send us an WhatsApp message and our team will get back to you immediately.

BIM & Prefab Services

Prefab systems can be particularly useful when installing systems in hard to reach places or under difficult conditions. That's why we offer a wide range of pre-assembled parts and systems for water supply and drainage, air ducts and fastening materials that we put together in our well-stocked production hall. Thanks to these PVC, PPC and PE piping systems you can work faster and more efficiently on location. Our specialized prefab team is ready and waiting to discuss the most suitable solution for your situation; from BIM model to the right prefab system.

Logistical Solutions

It can often be hard to have a clear overview of everything going on at a construction site. That's where our container service comes in handy. It's a portable warehouse that we bring to you with everything that you need for your project to succeed. Once it's on site you'll have a clear overview and an organised and fully stocked warehouse. You'll never run out of anything on the job again.

Rental Services

Installation work often requires expensive tools. Instead of purchasing something that you might only use once, you can save costs by hiring these highly technical devices from us.

Reliable partners

To make sure we deliver the best products and services, we work together with the most reliable partners in the branch.

GREAT GEAR

FROM VAN WALRAVEN

We love our clients so much that we decided to develop a special range of Van Walraven plumbing articles, fasteners and fire protection products for them. It's good stuff for a smaller price and we're very proud of it.

We hope you love it too.

PIPE SUSPENSION BAND
